**Standard accessories**

1 Set of hard outside solid jaws

1 Set of hard inside solid jaws

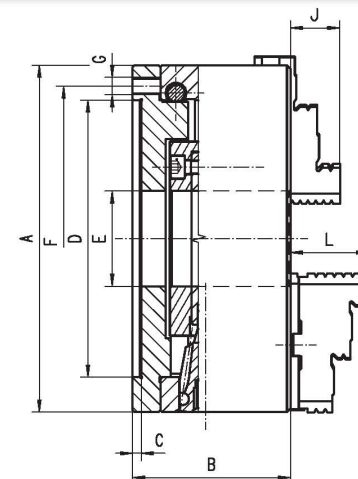

1 Wrench

Spare parts see pages 80-93

Technical data see pages 94-98

**Type 3264**

- Ground working surfaces ensure sustained accuracy and repeatability
- Repeatability: 0,015 mm
- Superior accuracy: small screws on the outside enable the chuck to be adjusted to position with nearly zero run-out (adjusting accuracy within 0,005 mm)
- The clamped workpiece is adjusted to the required concentricity by means of 3 tangentially arranged adjusting screws
- Hardened adjusting screws
- This chuck is made for universal use, but is particularly advantageous for grinding machines
- Mounted on the machine tool spindle from the back of the chuck by using an adapter plate

Q - Number of mounting screws
